VIET INFORMATION TECHNOLOGY DEVELOPMENT APPLICATION

Gives you professionalism

Vitda
Cloud Apps
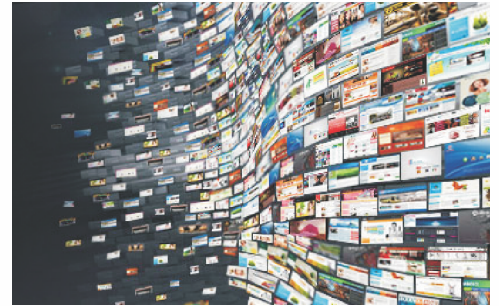

About Us

Starting point from outsourcing work to foreign corporations. Affected by the crisis of 2008, the service paradigm shifted from Outsoure to a production model and the creation of quality software products for local businesses and markets.

The company Vitda was founded on March 2, 2009 to develop online software products, provide IT services and additional services from major companies of Google and Microsoft. Application processes, resources and technology are available from the Outsource process. Apply to the software products being produced.

We understand that the IT industry is an invisible service, with only the heart and enthusiastic people, to provide our customers with quality service and sustainable value. For us, serving the development of customer is mission and bring resonance value.
